

Amendments to the Claims

This listing of claims replaces all prior versions, and listings, of claims in the application:

1. (currently amended) ~~An extract~~ pharmacologically effective amount of an extract from agaricus, ~~which comprises an ingredient~~ said extract being capable of preventing induction or metastasis of lung cancer and large intestine cancer caused by a carcinogen.
2. (original) The extract according to claim 1, wherein the extract is prepared by solvent extraction.
3. (currently amended) The extract according to claim 2, wherein the extract is prepared by extraction with ~~hot~~-water.
4. (currently amended) The extract according to claim 1, wherein the ingredient is a chromatographic ~~main~~-elute fraction of 100 to 2000 molecular weight obtained by the steps of extracting the fruit body of agaricus with ~~hot~~-water, dialyzing the resultant extract, and subjecting the thus obtained dialysis external fluid to chromatography.
5. (currently amended) The extract according to claim 1, wherein the ingredient is a dialysis external fluid obtained by the steps of extracting the fruit body of agaricus with ~~hot~~-water, adding ethanol to the resultant extract to thereby obtain precipitates, dissolving the precipitates in water, and dialyzing the solution.
6. (currently amended) The extract according to claim 1, wherein the cancer is induced by urethane, (4-N-methyl-N-nitroamino)-1-(3-pyridyl)-1-buthanone or azoxymethane.

7-11. (canceled)
